# A MESSAGE FROM OUR PRESIDENT

I welcome you to the third Annual Carnival of the Ice Club of Greater Winnipeg. We believe it is a considerable improvement over our previous shows you liked so well. We trust you will enjoy the performance.

We cannot stress too much the enthusiasm of our club members, which makes possible this evening of enjoyment for you.

You will be interested in knowing that our membership is increasing in numbers, and that our club is making excellent progress in all its activities.

During the season 1946-47 several troupes went out to numerous towns and cities in Manitoba and Saskatchewan, as well as in the State of Minnesota; they performed before audiences totalling over fifty thousand persons.

It is imperative that once again we cannot stress too much the importance of the best in professional assistance. In this connection we would be sadly negligent if we did not offer our best thanks to our Senior Club Professional, R. Whitehead, for his untiring efforts; to his skating assistants, Miss Shirley Craven and Miss Shirley Winter. The work of Miss Jean McKenzie, our teacher of ballet, is made evident in the grace and poise of the skaters.

The club is proud to be able to demonstrate to you the results of its further work.

The show must go on.

## YOURS to USE!...

In Winnipeg, your City Hydro provided the first low-cost electrical service for domestic and industrial users in 1911. Since then, the rates of the municipally-owned utility have always been low and the service dependable.

Its popularity has proven that it meets the public service test. Eighty-three per cent of Winnipeg's families, in addition to many commercial and industrial consumers, use City Hydro electricity.
